## ABOUT ME

I am a Computer Engineer graduated in 2016 at the University of Pinar del Río, Cuba. I have worked as a web developer in the last years using both technologies Frontend and Backend. I like the teamwork and contribute to make incredible things that's why I keep learning things new every day reading books, articles and online training.

## WORK EXPERIENCE

**Software Engineer, (GDAI) Computing Palace** - *September/2016 - present* - Computing Palace - Cuba, Pinar del Río.

- Development Web applications for content management using Symfony and Laravel as main technologies.
- Development of web applications for management and monitoring oriented to work with servers.
